About the
Reiki Master
Professional Licensed
Teacher Program
Welcome

Dear Prospective ICRT Professional Licensed Teacher:

Thank you for your interest in the International Center for Reiki Training and our Professional Reiki Master Teacher Licensing Program. During the past several years I have had the great pleasure of participating in the growth of the ICRT, and am honored to be here to serve you as Program Director along with my friends and colleagues, William Rand, the staff and our teachers.

I would like to take a moment to share with you a bit of my journey to Reiki, why I chose to become Licensed by the Center, and my vision for our program and for Reiki.

Since I was a small child I have known that my Divine Purpose was to learn about and teach healing in ways that our society had not yet accepted to be valid and I felt a deep sense of mission and passion to pursue this. When I met William Rand and became familiar with the Center, I realized that assisting in the growth of the Center was to be one way I would express my mission in this life. I was impressed by William's devotion to his work, his integrity and his vision. I was also motivated by two statements in the Center’s Philosophy:

- Placing greater value on learning from experience and inner guidance than on the teachings of an authority.
- Basing the value of a theory or technique on the verifiable results it helps one achieve.

Even though I had been teaching Reiki prior to joining the program, I wanted more training. I appreciated the fact that the program was a form of an “apprenticeship” but that it didn’t involve giving my power over to another person.

*Our program is actually structured so each student teacher becomes an apprentice to the Reiki Energy itself.*

Although we offer a wonderful structured curriculum, class manuals and support materials plus professional quality classes, we simply open the doors for our students. The greatest Reiki teacher is the energy itself. By following our program our teachers learn and blossom into qualified, professional practitioners and teachers.

We are here to provide structure, gentle guidance and encouragement. We have come to know that although basic technique is helpful in developing the ability to communicate with Reiki energy, the most important skill one can develop is that of listening to the energy. Reiki has innate wisdom, the energy itself cannot be manipulated or controlled by our will or desire for a certain outcome. Reiki is most effective when “delivered” by someone who is willing to serve as an instrument for it to flow through. That person is more effective when they allow the energy to flow without personality and ego interference.

An important element of our program is the documentation of Reiki sessions. In these sessions the Reiki Master learns the many ways in which Reiki communicates. The Reiki Master gains valuable experience regarding how Reiki heals various conditions, and can share these experiences with their students.

Reiki is not a theory, it is not a science, Reiki is infinitely intelligent healing energy which has much to teach us. *It requires disciplined, focused practice to learn what Reiki has to teach us.* That is why we have structured the program as we have. You will find details of the requirements in this manual. So please keep in mind that it is designed to create deep, meaningful experiences that will become a part of you and your work.

I am so pleased that we have such diversity among the professional and nonprofessional backgrounds of our teachers. Reiki is truly a tool that anyone can learn and use. To reach people from all walks of life, we need this diversity. We have psychologists, nurses, teachers, computer professionals, housewives and blue-collar workers in our program. Each brings with them a unique gift of being able to share Reiki with a specific segment of our society. Now our continuing education program is bringing Reiki into more mainstream professions.

Reiki is silently weaving its way through all cultures, religions and professions, and that is our
Vision ... Reiki being available to all who wish to heal, and to make a positive impact on the healing of our planet. We thank you for your personal commitment to this service.

In the Light of the Creator ... We See Only Love

International Center for Reiki Training
**Program Intention**

The Professional Licensed Teacher Program is offered as an advanced course of study for Reiki Masters who wish to teach the programs offered by the International Center for Reiki Training, and would like to benefit from this affiliation with the Center as an ICRT Professional Licensed Teacher. When referring to the teachers in this manual we often use PLT (ICRT Professional Licensed Teacher.)

This is a self-paced program. The student teacher is encouraged to allow a sufficient amount of time to benefit from the process. Part of our statement of the Center’s Philosophy encourages “Placing greater value on learning from experience and inner guidance than on the teachings of an authority,” we believe that this program encourages one to strengthen their ability to do so.

Reiki is a way to personal empowerment. This program has been designed in keeping with the nature of Reiki.

The intention of the program is to assist the Reiki Master-Teacher in developing an in-depth understanding of Reiki, and sufficient personal experiences to be able to serve effectively as a teacher to others. This process is educational and healing for those who choose to make the commitment.

Although we honor all Reiki teachers and practitioners, we recognize that there is a lack of consistency in training available from independent teachers. It is our belief that when a student is seeking quality Reiki training, they should receive some basic, standardized and organized training. We also feel it is important for the teacher be supportive of the student’s practice.

We recognize that Reiki is very fluid and is evolving, therefore we also encourage the development of new techniques and skills that are based on proven results. We honor our teacher’s individual styles of teaching, and their unique backgrounds. However, we require our teachers to offer, at a minimum, all the elements of our curriculum in their classes. This ensures students that they will receive consistent training regardless of which of our teachers they choose to study with.

We also believe that a code of ethics is necessary to insure that all of our teachers are serving in the highest possible way. For this reason we have developed our Ethical Standards and require all of our teachers to comply with them.

*The most challenging part of managing this program is selecting applicants. We receive applications from hundreds of Reiki Masters each year, and our program can only accommodate a few new teachers each year.*
Goals and Purpose of the PLT Program

The purpose of the Professional Licensed Teacher’s Program is to produce quality teachers to represent the ICRT in a professional manner.

Toward this goal the International Center for Reiki Training is committed to:

1. **Maintaining Professional Standards by providing:**
   - a professional level of credentialing, with the goal of allowing the Center to continue to provide CEs for nurses and other CEU programs.
   - a training ground for Student Teachers to learn from experienced mentors while developing a thorough understanding of Reiki through sufficient personal experiences.
   - qualification and review procedures to ensure teachers completing the program are emotionally balanced, cooperative rather than competitive, ethical, business-savvy and are effective teachers.
   - an effective, rational Code of Ethics to insure that all our teachers operate in integrity and in the highest possible way to serve others.

2. **Providing Opportunities for Growth Among Senior Teachers**

   To promote growth among our Senior Licensed teachers, as they serve as mentors, coaches, or reviewers while assisting Student Teachers.

   Provide opportunities for senior teachers to participate more actively in the Center in terms of updating manuals, writing articles, creating professional conferences and more.

   To incorporate the latest research, techniques, and findings into the ICRT classes

3. **Providing Quality Teaching Materials and Ongoing Teacher Training**

   Our Licensed Teachers assist in the development of new classes and training materials. Promote ongoing development of a standardized, organized and consistent method of teaching classes, as outlined by the Center, while incorporating the best suggestions from our teachers.
**Ethical Standards**

1. Be in agreement with and working to fully express the Usui Ideals, the Center Philosophy and the Center Purpose.

2. Respect all Reiki practitioners and masters regardless of lineage or affiliation. Refrain from making negative statements about other practitioners or masters.

3. Actively work to create harmony and friendly cooperation between all Reiki practitioners and masters regardless of lineage or organizational affiliation.

4. Encourage all students to use their own inner guidance when deciding who to receive Reiki treatments from or who to study Reiki with including the possibility of studying with more than one teacher.

5. Openly encourage all your clients and students to do the best job possible with the Reiki program they are guided to use.

6. Always work to empower clients and students to heal themselves. Encourage and assist them with personal growth and development of their Reiki practice.

7. Always treat your students and clients with the greatest respect. Never engage in any illegal or immoral activity with your clients or students. Never touch their genital area or breasts, never ask them to disrobe, or never make sexual comments or references.

8. Abstain from the use of drugs or alcohol during all professional activities.

9. Practice Truth in Advertising. Present the subjects covered in your Reiki classes, the full tuition, and the amount of time spent in. When listing your Reiki training and/or qualifications in a bio, include the fact that you have completed the Reiki Teacher Licensing program with The International Center for Reiki Training. When advertising Reiki classes, include the fact that you will be teaching as a Licensed teacher in accordance with ICRT guidelines. State that Reiki certificates are issued by the ICRT. If any classes are not Center Licensed, use an asterisk to mark those classes and include “*not Center Licensed” on the same page.

10. Never use another person’s copyrighted material in your classes without permission and giving credit.

11. Be open to the continuing process of enhancing your professional qualifications, training, experience and skills.

13. Be actively working on your own healing and fully express the essence of Reiki in everything you do.

**Ethical Standards** (continued)

14. Educate the client regarding the value of Reiki and explain that it does not guarantee a cure, and is not a substitute for medical or psychological treatment.

15. Acknowledge that Reiki works in cooperation with other forms of medical, or
psychological care. If a client has a medical or psychological condition, suggest, in addition to giving them Reiki treatments, they see a health care practitioner if they are not already seeing one.

16. Never diagnose medical or psychological conditions or prescribe medications. Never suggest that a client change or end dosages of substances prescribed by other licensed health care providers. Never suggest the client change prescribed treatment. Never interfere with the treatment of a licensed health care provider.

The Application Process

An Overview of the Application process

Student Teachers who are accepted into the program will be assigned an ICRT Senior Teacher as a Mentor. This assignment is made by the Director of Professional Teacher Licensing. This mentor teacher will be a valuable resource for you as you progress through the licensing program.

The requirements to enter the Professional Licensed Teacher Program follow. The requirements are listed in a checklist format. Upon completion of the checklist, you have fulfilled all the requirements to be considered for admission into the Licensed Teacher Program.

The ICRT Admissions Committee will evaluate your application upon receipt of all required submissions. After we thoroughly review your application and contact your references, you will be advised of your status.

Following the application procedure you will find the requirements to be fulfilled upon acceptance into the Licensed Teacher Program.

To remain active in the program you are to submit a monthly progress report to your mentor teacher with a copy sent to the Program Director.

This monthly report must list the number of treatments you have given, the type of treatment (client, distant, personal), the number and level of classes you taught, class date and number of students. This portion of the report is to be emailed to your mentor and to the Program Administrator. Your review forms must be mailed to the address on the front of this document.

This report is required due to the number of people waiting to come into the program. This reporting process helps to insure that those who hold the student teacher slots are committed to and are actively completing the program requirements.

Next you will find the requirements that need to be fulfilled to teach the advanced level courses once you become a Licensed Teacher.

The Professional Contract you will sign upon acceptance and all forms needed for your application process can be found in the back of this manual.

Requirements to Teach Advanced Level Reiki Classes as a PLT

**ART/Master Level**

The PLT must be teaching Reiki I & II classes for a minimum of one year and teach a minimum of six classes as a Professional Licensed ICRT Teacher. Each class should have a minimum of 3 students.

1. Teach for a minimum of one year
2. During the year you must teach (4) Reiki I and (4) Reiki II classes or (4) Reiki I and II (combined) classes.
3. Teach 2 ART/Master classes as an independent teacher. (i.e. the Center won’t advertise, or issue certificates for the ART/Master class but you should be teaching these levels independently to gain experience)
4. A total of (12) students must have attended these classes.
5. Pay a monthly tuition/administrative fee of $100 to the ICRT Licensing Program a student teacher for Reiki I & II.

Before teaching ART/Master as a licensed teacher the student must both review and co-teach ART/Master. When reviewing it is necessary to do so from a future teaching perspective. Observing the Senior Teacher’s presentation will be helpful in this process. The student teacher must have reviewed the class with a Senior Licensed Teacher within six months of co-teaching their class.

When the student teacher is reviewing, or co-teaching (in Senior teacher’s class, the student teacher pays full tuition to the senior teacher)

To maintain licensing to teach ART/Master the Student Teacher must teach these levels within one year after co-teaching. When a Center Licensed Teacher comes to your class to review, they should be introduced as a fellow teacher to the class. The reviewing PLT is not there to co-teach so they should be respectful of the presenting teacher, the reviewing student should at all times be in the role of a student. However, it would be appropriate for the Senior Teacher to ask the other PLT if they have anything to add during the informational parts of the class. The reviewing teacher must retake the symbols test and submit it as proof of review.

There are two options to co-teach the class for ICRT licensing. In the first option, the co-taught class can be sponsored by the Student Teacher and the Senior Teacher will travel to their location. They must have an eight student minimum or guarantee students fees for eight students (any fees due must be paid to the Senior Teacher within three months of the class.)

The second option is for the Student Teacher who would prefer to not sponsor the class. They can co-teach with a Senior Teacher by traveling to one of the Senior Teacher’s classes. In this instance no fee is paid to the Student Teacher, as they are not establishing the class. The Student Teacher must also pay the standard class tuition to the mentor, if this option is chosen. In the advanced level classes, the actual co-teaching must be on a shared basis with each teacher presenting about 50% of the course material.
Requirements to Teach Karuna Reiki® as a PLT

The Student Teacher should have been teaching ART/Master level for a minimum of one year, or three classes with a minimum of 2 students per class, before co-teaching Karuna Reiki® with a senior teacher.

1. Teach ART/Master class for one year.
2. Teach (3) Karuna Master classes as an independent teacher
3. Teach a minimum of (9) Karuna Master students during the year
4. Pay a monthly tuition/administrative fee of $50 to the ICRT Licensing Program a student teacher for Reiki I & II.

Before teaching Karuna Reiki® as a licensed teacher the student must both review and co-teach Karuna Reiki®. When reviewing it is necessary to do so from a future teaching perspective. Observing the Senior Teacher’s presentation will be helpful in this process. The Student Teacher must have reviewed the class with a Senior Licensed Teacher within six months of co-teaching their class. This teacher must also be a Registered Karuna Reiki® Master. The reviewing teacher must re-take the symbols test and submit it as proof of review.

To maintain licensing to teach Karuna Reiki® the Student Teacher must teach these levels within one year after co-teaching. When a Center Licensed Teacher comes to your class to review, they should be introduced as a fellow teacher to the class. The reviewing PLT is not there to co-teach so they should be respectful of the presenting teacher, the reviewing student should at all times be in the role of a student. However, it would be appropriate for the Senior Teacher to ask the other PLT if they have anything to add during the informational parts of the class. The reviewing teacher needs to fill out the top part of the symbol test to be submitted as proof of review. They must retake the symbol test and submit it as proof of review.

When the student teacher is reviewing, or co-teaching (in Senior teacher’s class, the student teacher pays full tuition to the senior teacher)

There are two options to co-teach the class for center licensing. In the first option, the co-taught class can be sponsored by the Student Teacher and the Senior Teacher will travel to their location. They must have an eight student minimum (six if no travel is involved) or guarantee student fees for these students (any fees due must be paid to the Senior Teacher within three months of the class.) These fees, less class & travel expenses, will be split 30% to the sponsoring teacher and 70% to the Senior Teacher.

The second option is for the Student Teacher who would prefer to not sponsor the class. They can co-teach with a Senior Teacher by traveling to one of their classes, but no fee is paid to the Student Teacher, as they are not establishing the class. In the advanced level classes, co-teaching should be on a shared basis with each teacher presenting about 50% of the course material.

I understand that Reiki is a simple, gentle, hands-on energy technique that is used for stress reduction and relaxation. I understand that Reiki practitioners do not diagnose conditions nor do they prescribe or perform medical treatment, prescribe substances, nor interfere with the treatment of a licensed medical professional. I understand that Reiki does not take the place of medical care. It is recommended that I see a licensed physician or licensed health care professional for any physical or psychological ailment I may have. I understand that Reiki can complement any medical or psychological care I may be receiving. I also understand that the body has the ability to heal itself and to do so, complete relaxation is often beneficial. I acknowledge that long term imbalances in the body sometimes require multiple sessions in order to facilitate the level of relaxation needed by the body to heal itself.
