## **Handy Dandy Reiki Brochure Holder**

Here's a brochure holder you can use to display your Reiki brochures on any bulletin board. You simply download the file and print it on your home printer using card stock. Then follow the instructions printed on the side of the page. When done just thumbtack it to a bulletin board and place your brochures inside.

### **Instructions**

1. Download the file.
2. Use white card stock which you can get at any office supply or stationary store.
3. Print it on the card stock using your home printer.
4. You'll need to print page 1 first, then turn the paper over and place it back into your printer and print page 2.
5. Follow the directions for cutting and folding.
6. Hold it in place using tape on the back. Then staple it to make it stronger.
7. Thumbtack it to any bulletin board and place your Reiki brochures inside.
8. Return to each location where you've placed your brochure holder regularly to refill with more brochures.
